Suf Karmon

I believe the best results are achieved through multi – disciplinary collaboration. So I have dedicated the past 9 years doing so. Now looking to contribute as a software developer. Combination of a software developer's knowledge, experience of a technological units alumni, and elite military fighter's mentality – all in one.

Programing skills

- Frontend: HTML, CSS, Java-script
- Backend: PHP

- MySQL, JSON
- C, C++

Work experience

2019-2022
IDF - Product manager / C4I department (Command Control Communications and Intelligence)

Lead the development of 3 'In house' command & control systems
Initiated an 'operative need' from prototype development to full operational use and expanding to every small vessel in the Navy
2.5 years experience in Agile software development methods
Initiated digital transformation of navy commando vessels to integrate independent systems under a local cloud and shared resources.
Responsible for the full product life-cycle from early requirements, architecture, budget, roadmap, integration, development and prioritization alongside the R&D team

2017-2019
Captain / Commander of a navy patrol boat

In charge of a crew of 14 soliders and the Captain of the ship
Responsible for combat missions, training programs, technical maintenance, and general well – being of the soldiers

2013-2016
Cadet / Naval Academy Course ("Hovlim")
